

# ORGANIC VITAMINS & MINERALS

NATURAL, PLANT BASED, VEGAN & ORGANIC CERTIFIED  
FOOD FORM OF VITAMINS & MINERALS  
CLEAN LABEL

GENTLE PROCESSING TO PRESERVE ORIGINAL NUTRIENTS  
PLANT MATERIAL TRACEABILITY  
ORGANIC TRACEABILITY  
GMP & ISO

ORGANIC CERTIFIED BY ECOCERT

GMP COMPLIANT MANUFACTURING UNDER STRICT QUALITY CONTROL. NABL-ACCREDITED CLINICAL LAB TESTS ALL RAW MATERIALS AND FINAL INGREDIENTS TO ENSURE CONSISTENCY

### WHOLE FOOD CONCEPT

We are offering vitamins and minerals as organic «whole-food complexes» or «food-complexes», with all their nutrient co-factors: just as they exist in Nature.

They are ingredients with minimal processing carried out, therefore preserving their original vitamins and minerals profiles: the way the body likes them.

### OUR PRODUCT RANGE

INGREDIENTS	ACTIVE CONTENT	SOURCE
Vitamin B12	Cobalamins 0.1%	Shiitake
Biotin Vitamin B7	Biotin 2%	Coriander leaves and Sunflower seeds
Chromium	Chromium 0.5%	Curry and Parsley leaves
Folate Vitamin B9	Folate 10%	Spinach leaves
Iron	Iron 2%	Curry leaves
Selenium	Selenium 0.5%	Holy Basil leaves, Shiitake and Oyster mushrooms
Vitamin D3	70000 IU/gr D3	Cladonia Rangiferina
Multivitamins	17 actives	Amla, Moringa, Shiitake, Garlic, Carrot, Sunflower, Spinach, Parsley, Coconut, Cladonia Rangiferina
Vitamin C	Amla 50%	Amla fruits
B Complex	Various	Garlic, Shiitake and Sunflower seeds
Magnesium	Magnesium 10%	Rice bran and Sunflower seeds
Vitamin B6+B1	Vit B6 3.5% / B1 2.5%	Garlic

### FROM FIELDS TO MARKET

Our manufacturing partner is vertically integrated in the Organic Biodynamic and Regenerative Agricultural system. Thanks to their efforts for a sustainable and equitable farming organization, we have reached an essential supply chain stability and consistency. Universities and local microbiome research centres are involved in the development of the range in order to achieve higher farming yield preserving natural plant's lifecycle. Patented manufacturing process and internal plant's control & selection system complete the outstanding organization that allow us to offer a unique ingredient's range.

### TRACEABILITY SYSTEM

The whole range is processed under a full traceability system as given below:

- 1/ Plant Material traceability** - Our supply chain is governed by the VCS-MPP scheme, a marker-assisted identity program that guarantees produce source.
- 2/ Organic Traceability** - We follow the Indian Organic program (NPOP) which has an equivalency to the EU organic program. The supply chain is fully traceable to the farm, EU Certified, tracked by the 'Tracenet' under Indian NPOP.
- 3/ We comply with quality systems** like **GMP**, **ISO** and a **program that tracks traceability** at three levels :
  - **Farm Trace** - GACP based
  - **Handling Trace**
  - **Manufacturing Trace**
