

UNIQUE TRI-PEPTIDE FORMULA
LOW DOSE CLINICALLY VALIDATED EFFICACY
PERFECTLY SOLUBLE
NEUTRAL TASTE/ODOUR

Morikol® is a highly bioavailable, ASC* certified, fish-sourced, collagen tripeptide formulation. It supplies concentrated, standardized amounts of tripeptides – the functional base units of collagen. Tripeptides move passively into the bloodstream and upregulate biosynthetic processes that optimize collagen formation and supportive skin and joint architecture.

- BIOAVAILABILITY
- EFFECTIVENESS
- BEAUTY STUDY

- ASC CERTIFIED
- TASTELESS
- ODOURLESS

- 1G A DAY DOSE
- AVERAGE MOLECULAR WEIGHTS OF MORIKOL TRIPEPTIDES AVERAGING ONLY 300 DA

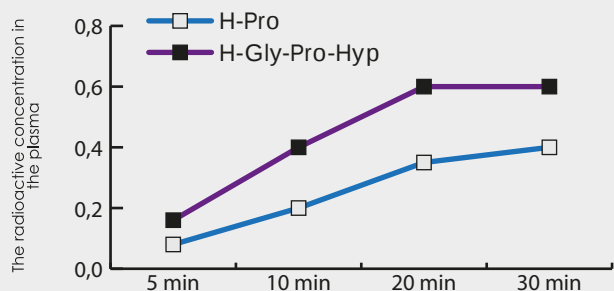

HOW DOES IT WORK ?

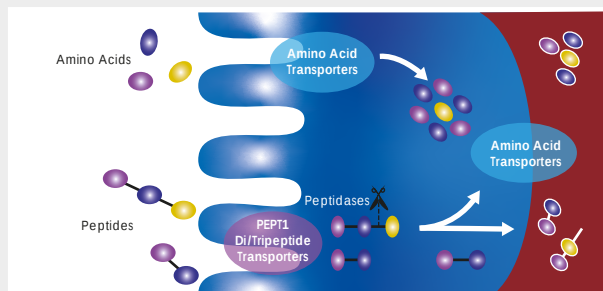

Enhanced Bioavailability

Absorption from the digestive tract

(variation of Radioactive Concentration in the Plasma)

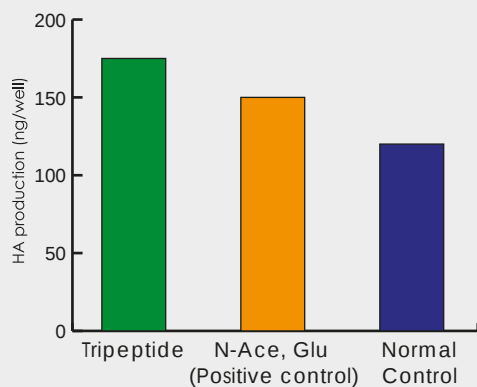

Enterocyte

Collagen tripeptide stimulates

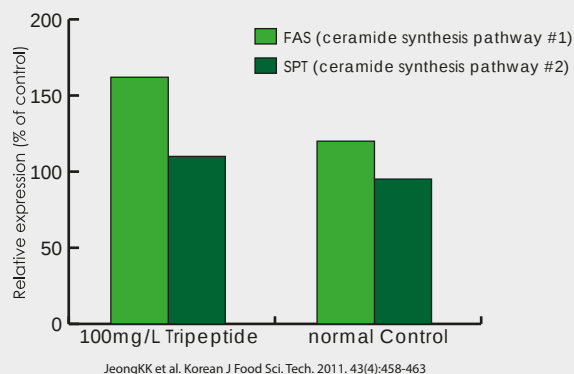

Collagen Tripeptides ↑ fibroblast production of hyaluronic acid (HA)

- ↑ fibroblast production of hyaluronic acid (HA)
- ↑ Hyaluronan Synthase 2 (HAS2)
- ↓ TEWL (transepithelial water loss)
- ↓ skin itching

Collagen Tripeptides ↑ RNA expression of 1° ceramide/skin lipid activators

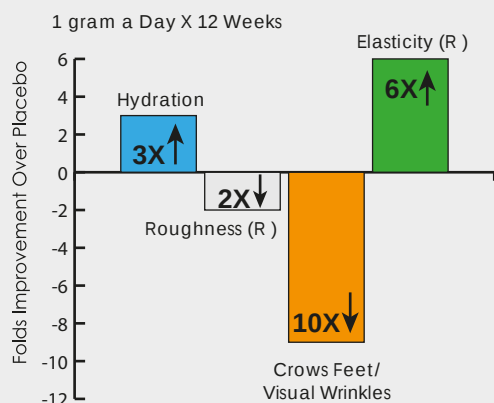

- ↑ ceramide synthesis pathways in Human keratinocyte cells
- Via SPT (Serinepalmitoyl Transferase)
- Via FAS (fatty acid synthesis)

Beauty from Within

In-Vivo Clinical study – Beauty

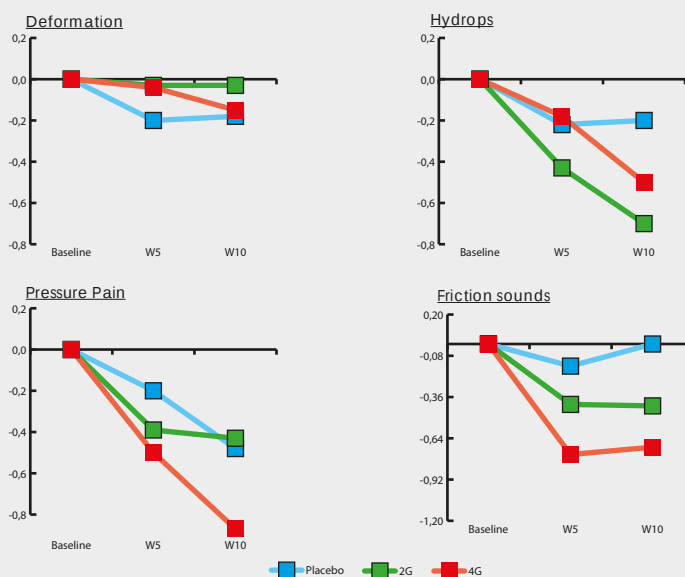

(60 subjects, double-blind placebo, 12 weeks, 1 g/d Tripeptide collagen + vit C, 100mg)

Joint Support

In-Vivo Clinical Study – Joint Health

(66 subjects, double-blind placebo, 10 weeks, 2 g/d or 4 g/d Tripeptide collagen)

SUITABLE FOR:

KOSHER - HALAL - ORIGIN: TILAPIA FISH
